## SUMMARY

A motivated and courageous student, seeking to gain experience in programming. Started as a business student with an interest in coffee, who became a barista. I later came across programming, which sparked a career interest of mine. Eager to expand my breadth of knowledge and work towards a position of a developer, I'm confident in my student mentality and ability to adapt quickly. I also expect to have a chance to learn design skills.

## EXPERIENCE

### CAFE 20GRAM, Yeonnam-dong, Seoul

#### Barista | Oct 2021 – Present

- Greets 40-60 customers each day, answering questions and responding to concerns to ensure a positive experience for each customer.
